FOREWORD

Development of a sound information system is critical for successful monitoring and implementation of any programme, particularly in social sectors. Design of a school information system was, therefore, accorded priority from the very beginning of the District Primary Education Programme (DPEP) in 1994, as a result of which the District Information System for Education (DISE) was developed by the National Institute of Educational Planning and Administration (NIEPA).

Importance of an Educational Management Information System (EMIS) was reiterated when *Sarva Shiksha Abhiyan* (SSA) was launched in 2001. SSA guidelines envisage development of a community-owned and transparent EMIS, and preparatory activities of the programme included substantial strengthening of MIS infrastructure in States.

About 581 districts in twenty-nine States & UTs have now adopted DISE and it is proposed to cover all districts and completely replace the existing manual system of collection of educational statistics, in so far as elementary education is concerned, in a year or so. Information generated through DISE will then acquire status of official statistics.

The present volumes present the District Report Cards (Volume I & II) on more than four hundred variables for the year 2004-05. Most of the indicators are presented according to school category. Information presented in these volumes is particularly valuable for implementing educational programmes like SSA in the decentralized context. I am confident that this set of data will be used in planning for good quality elementary education at different levels, and that data users, researchers and development planners interested in the Indian education system will find these volumes useful.

I must take this opportunity to thank UNICEF, Delhi for consistently supporting EMIS activities since 1994, as well as NIEPA, especially Dr. Arun C. Mehta, Fellow, and his team, for bringing out the present publication.

(Kumud Bansal)

SECRETARY
MINISTRY OF DEFENCE

FOREWORD

The Government of India has the honour to announce that the Ministry of Defence has decided to publish the following book in the form of a pamphlet. The book is entitled 'The Defence of India' and is written by the late Mr. B. K. Chatterjee, a well-known author and journalist. The book is a valuable contribution to the study of the defence of India and is highly recommended for all those who are interested in the subject.

The book is published by the Government of India, New Delhi, and is available for purchase at a price of Rs. 1.00 per copy. The book is also available for loan to all libraries and institutions. The book is a valuable addition to the collection of any library or institution concerned with the study of the defence of India.

The book is a valuable contribution to the study of the defence of India and is highly recommended for all those who are interested in the subject. The book is published by the Government of India, New Delhi, and is available for purchase at a price of Rs. 1.00 per copy. The book is also available for loan to all libraries and institutions.

The book is a valuable contribution to the study of the defence of India and is highly recommended for all those who are interested in the subject. The book is published by the Government of India, New Delhi, and is available for purchase at a price of Rs. 1.00 per copy. The book is also available for loan to all libraries and institutions.

The book is published by the Government of India, New Delhi, and is available for purchase at a price of Rs. 1.00 per copy. The book is also available for loan to all libraries and institutions.

Prof. Ved Prakash
Director

From the Director's Desk

I am happy to present *Elementary Education in India: Where Do We Stand: District Report Cards*, which is based upon the DISE 2005 data. In September 2005, NIEPA brought out *Elementary Education in India: Where Do We Stand: Analytical Report 2004* which contains a large number of state-specific indicators spread over different aspects of universalisation of elementary education. I have been given to understand that the amount of data which is being disseminated through the present publication is enormous and very rich in contents. The District Report Cards 2005 present a variety of district-specific indicators which would be of immense help to users.

NIEPA is committed to provide professional and technical support to all the States and UTs. We have been conducting workshops on DISE across the country. This has helped in improving the capacity of both the state and district level MIS officers substantially. We plan to further intensify our capacity building activities in the year that follows.

I am confident that all the remaining States and Districts would be covered under DISE in a year or two. This is important in the light of the Government's decision to gradually replace the existing manual system of data collection by the DISE.

I would like to place on record my appreciation for all the hard work put in by the DISE team led by Dr Arun C. Mehta in bringing out this publication. I am certain that the researchers, policy makers, administrators and planners will find the publication both informative and useful.

(Ved Prakash)

New Delhi
January 2006

Acknowledgements

For the last several years, NIEPA has been actively involved in strengthening the Educational Management Information System (EMIS) in the country. The year 2005 District Report Cards are based on the data received from 581 districts across twenty-nine States and UTs. This publication contains data received at the national level till the end of August 2005.

The study of this magnitude cannot be completed without the active involvement and participation of the professionals compared with the implementation of EMIS at the national and sub-national levels. The state level MIS coordinators, district level programmers & data entry operators, and BRC & CRC coordinators worked for long hours to make sure that the data becomes available at the right time.

Ms. Kumud Bansal, Secretary in the Department of Elementary Education and Literacy, MHRD and her team has always been a source of great inspiration. In particular, I am thankful to Ms. Vrinda Sarup, Joint Secretary and Shri Dhir Jhingran, Director for playing crucial role in facilitating the implementation of DISE in various states.

I take this opportunity in thanking UNICEF, Delhi, especially Dr Suzanne Allman, for consistently supporting EMIS activities for the last more than ten years.

I envisage full support in DISE operations from Prof. Ved Prakash, Director, NIEPA who assumed office recently. I am thankful to Prof. Marmar Mukhopadhyay for his encouragement. I appreciate the support that I have been receiving from my faculty colleagues from time to time.

Although it is not possible to name each and every individual working at the state and district levels, their contribution is gratefully acknowledged. At the national level, the MIS Unit of the Technical Support Group (ED.CIL) led by Shri M. K. Talukdar, Chief Consultant (MIS) played a significant role in providing professional support to the states in the implementation of DISE.

The mammoth task of collecting data from 581 districts, meeting day-to-day queries of the EMIS field staff, and providing professional and software support to all the states could not have been possible without the active support from each and every member of the DISE project team located at NIEPA. The contribution of Shri Naveen Bhatia, Computer Programmer, in database management & software development and Dr. R. S. Thakur, Consultant in data scrutiny is gratefully acknowledged. Special thanks are due to

Shri Shalender Sharma, Project Associate Fellow, for facilitating the preparation and design of District Report Cards.

I also express thanks to Shri Pramod Rawat, Deputy Publication Officer and his colleagues in the Publication Unit, especially Shri Sudhakar Mishra for extending all the help. I am also thankful to Shri S. A. Siddiqui and Ms. Alka Mishra of the DISE project for providing useful assistance.

I hope that this publication will be of value for education planners, policy formulators and researchers.

Any suggestion for improvement is most welcome.

Report Cards: An Overview

1. Introduction

Ever since its inception, the DPEP has emphasized decentralized planning of education with a focus on district planning. This was again reiterated in *Sarva Shiksha Abhiyan* Programme that envisages achieving goal of universal elementary education by 2010. In order to operationalize this premise into reality, considerable amount of educational and allied data is required for each district. It was in this context that the District Information System for Education (DISE) was designed to provide district and sub-district level school data for planning, monitoring and review of various project interventions. The DISE data received from schools are computerized at the district level and disseminated upto the school level in various ways. The data capture formats; definitions and concepts used for data collection are available at <http://www.dpepmis.org> which is being followed uniformly across states.

2. District Report Cards

Since 1999, efforts are being made to share the district level data with the educational planners, administrators and the data users in the form of District Report Cards. In addition to print material, a variety of dissemination strategies, including CDR and web publishing, were adopted to improve availability of district level data to the data users. From the year 2001-02, the scope of DISE has been extended to cover new data elements as well as to expand the scope to the whole of the elementary education sector. The present volumes present the District Report Cards (Volume I & II); and contain a comprehensive district-specific database on elementary education in India. The District Report Cards incorporate information on the following important areas of elementary education:

- a) Basic data on population, literacy, sex ratio, number of blocks, villages, clusters and schools from which data is reported.
- b) Key data on elementary education in terms of number of schools, enrolment, and teachers classified by school-category and school management (Government & Private). Details of schools and enrolment in rural areas are also made available category-wise and management-wise.
- c) Grade-wise and level-wise enrolment along with percentage of overage and underage children at primary and upper primary levels of education in each district.
- d) Examination results for the previous academic session for the terminal class at primary and upper primary levels of education.
- e) Classrooms categorized into good condition, requiring minor and major repairs by school category.
- f) Number of schools by category and by type of building.
- g) Distribution of regular and *para* teachers by educational and professional qualifications and by school category.
- h) Sex-wise enrolment of children with disabilities in primary and upper primary classes.
- i) Gender and caste distribution of regular and *para* teachers and proportion of teachers undergoing in-service teacher training by school category.
- j) Enrolment by medium of instruction and by school category.
- k) Sex-wise number of students benefited by various incentive schemes at primary and upper primary levels.

- l) Grade-specific promotion, repetition and drop out rates at primary and upper primary levels of education. This has been presented for the districts having atleast 2 years DISE data.
- m) Transition from primary to upper primary level and retention rate at the primary level. Transition rate is presented in case of districts having atleast 2 years data and completion in case of districts having 4/5 years DISE data.
- n) Performance indicators in terms of school category, enrolment distribution: total, Scheduled Castes, Scheduled Tribes, percentage of girl's enrolment, GPI, classrooms, single teacher schools, schools with attached pre-primary classes etc.
- o) Quality indicators according to category of schools, teacher pupil ratio, average number of teachers, availability of female teachers, school buildings, students classroom ratio, common toilets, girl's toilets, schools without building and blackboard etc.
- p) Number of schools received school development and teaching learning material grant by school category.

3. Methodology and Sources of Data

The Report Cards are based on the school level data provided by the State Project/Mission Directors to the Department of Elementary Education and Literacy of the MHRD. The data are first cross-checked and validated at the district and then at the state level. After the state is satisfied with the quality and reporting of the data, it is submitted to the national level for analysis, dissemination and reporting to various project management agencies. At the national level thorough scrutiny of state-specific data is undertaken and limitations, if any, are reported to the states concerned.

In addition to the DISE, the District Report Cards also present selected data from the 2001 Census. The definitions and concepts followed in the preparation of District Report Cards are the same as used in the DISE data capture formats. The MIS Unit at TSG also undertakes processing of data and shares the major findings with the states in the form of tables derived from the state/district level DISE data.

Despite best efforts, some schools have not responded to all the classificatory variables, like management, year of establishment, rural/urban classification, school category, building status, academic and professional qualifications of teachers, caste and sex code for teachers etc. Wherever possible, efforts have been made to analyze the data by excluding the no-response values. In some tables, the no-responses are also shown separately. However, in some cases, the no-responses are explicit from the tables and hence the totals may not match across various tables due to different number of no-responses. In cross tabulation, the no-responses are excluded.

3.1 Indicators and their Formulation

The report cards contain absolute data on selected variables and also present trends and analysis of indicators derived from the school and the district level data. For the purpose of presentation and ease of understanding and interpretation, certain classificatory variables are regrouped. The following paragraphs provide information on the variables where regrouping has been done for the purpose of presentation in the Report Cards:

- a) *School management*: The District Report Cards present data on management in terms of Government and Private category. The Government category includes all schools under the management of the Government (Central/State), Tribal/Social Welfare Department, Local Bodies, and *Kendriya Vidyalayas*, Army Schools, *Navodaya Vidyalayas*, *Sainik* Schools, Tibetan Schools, Navy Schools, Project Schools etc. The private category includes schools classified as Private Aided and Private Unaided. It may be noted that DISE covers only the recognized schools falling under the above categories. Unrecognized schools are not included in the DISE information collection system.

- b) *School buildings*: The classification of schools is also presented in terms of the number of school buildings and their type. Schools having more than one type of building structures are counted under the category of 'Multiple Type Building'.
- c) *Teachers in position*: The analysis of teachers' data is in terms of the teachers shown as 'in position'. The distribution of teachers in terms of educational qualifications has been presented separately for teachers and *para* teachers. Teachers include TGTs, Head Teachers, Center Head Teachers, regular and temporary primary/elementary teachers, subject teachers such as: Art & Craft Teachers, Oriental Teachers, Language Teachers, Drawing Teachers, Music Teachers, Computer Instructors, and Physical Education Teachers. Community teachers, voluntary teachers, *Guruji*, are included amongst *para* teachers. The analysis of teachers' data for in-service training is presented for the regular teachers. *Para* teachers have been excluded from this analysis in the Report Cards.
- d) *Mediums of instruction*: The District Report Cards present the number of children studying through various mediums of instruction by category of schools. The data for four major mediums of instruction are presented in the Report Cards and if a state/district has more than four mediums of instruction, these have been presented under the category, 'Others'.
- e) *Schools, villages, blocks and clusters*: The number of blocks, villages and schools is based on the initialized entities in the DISE software. The list of blocks, villages and schools is created at the time of DISE implementation and is updated annually. The number of clusters refers to the mapped entities with the blocks. Some states have often reorganized clusters. Towns and municipalities have been classified as separate blocks.

The main indicators presented in the Report Cards have been derived by using the following illustrative formulas. The derivations are given for schools in primary category only. The same method is applied for other categories and classificatory groups.

1.	% Single classroom schools	=	$\frac{\text{Primary schools having single classroom}}{\text{Total primary schools}}$	x 100
2.	% Single teacher schools	=	$\frac{\text{Primary schools with single teacher in position}}{\text{Total primary schools}}$	x 100
3.	% Schools with SCR ≥ 60	=	$\frac{\text{Primary schools having student classroom ratio } \geq 60}{\text{Total primary schools}}$	x 100
4.	% Schools with pre-primary sections	=	$\frac{\text{Primary schools having pre-primary sections}}{\text{Total primary schools}}$	x 100
5.	% Schools with common toilet	=	$\frac{\text{Primary schools having common toilet}}{\text{Total primary schools}}$	x 100
6.	% Schools with girl's toilet	=	$\frac{\text{Primary schools having girls toilet}}{\text{Total primary schools}}$	x 100

Enrolment in primary schools
having Education Department, Local Body, Tribal Welfare
Department & Others as school management

7. % Enrolment in Government Schools	=	$\frac{\text{Enrolment in primary schools having Education Department, Local Body, Tribal Welfare Department \& Others as school management}}{\text{Total enrolment in primary schools}}$	x 100
8. % Enrolment in Private Schools	=	$\frac{\text{Enrolment in primary schools having Private Aided and Private Unaided as school management}}{\text{Total enrolment in primary schools}}$	x 100
9. % Enrolment in single-teacher schools	=	$\frac{\text{Enrolment in primary schools having single teacher}}{\text{Enrolment in total number of schools having primary category}}$	x 100
10. % No female teacher schools (teacher ≥ 2)	=	$\frac{\text{Primary schools having teacher } \geq 2 \text{ but no female teacher}}{\text{Total primary schools}}$	x 100
11. % Students in schools without building	=	$\frac{\text{Enrolment in primary schools having no building}}{\text{Enrolment in primary schools}}$	x 100
12. % Students in schools without blackboard	=	$\frac{\text{Enrolment in primary schools having no blackboard}}{\text{Enrolment in primary schools}}$	x 100
13. % Under-age & over-age children =	=	$\frac{\text{Enrolment in Grades I-V below '6' \& above '11' years}}{\text{Total enrolment in Grades I-V}}$	x 100
14. % SC enrolment	=	$\frac{\text{Enrolment of SC in primary classes}}{\text{Total enrolment in primary classes}}$	x 100
15. % SC girls to SC enrolment	=	$\frac{\text{Enrolment of SC girls in primary classes}}{\text{SC enrolment in primary classes}}$	x 100
16. % ST enrolment	=	$\frac{\text{Enrolment of ST in primary classes}}{\text{Total enrolment in primary classes}}$	x 100
17. % ST girls to ST enrolment	=	$\frac{\text{Enrolment of ST girls in primary classes}}{\text{ST enrolment in primary classes}}$	x 100
18. Pupil Teacher Ratio (PTR)	=	$\frac{\text{Total enrolment in schools of primary category}}{\text{Total teachers in primary schools category}}$	

(Para-teachers have been included while calculating PTR)

19. Student-Classroom Ratio (SCR) =
$$\frac{\text{Total enrolment in primary schools}}{\text{Total classrooms in primary schools}}$$
20. % Schools with ≥ 50 students in Grades I – IV/V =
$$\frac{\text{Number of primary schools having enrolment } \geq 50 \text{ in Grades I – IV/V}}{\text{Total primary schools}} \times 100$$
21. % Schools with PTR ≥ 100 =
$$\frac{\text{Total primary schools having PTR } \geq 100}{\text{Total primary schools}} \times 100$$
22. % Female Teachers =
$$\frac{\text{Total female teachers in primary schools}}{\text{Total teachers in primary schools}} \times 100$$

(Para teachers have been included while calculating this indicator)
23. % of Primary schools established since 1994 =
$$\frac{\text{Total primary schools established since 1994}}{\text{Total primary schools}} \times 100$$

(The denominator excludes the schools for which year of establishment is not given)

24. Flow Rates

(a) Promotion Rate

$$(p_g^t) = \frac{P_{g+1}^{t+1}}{E_g^t} \times 100$$

where

P_{g+1}^{t+1} = Number of students promoted to grade 'g+1' in year 't+1' and

E_g^t = Total number of students in grade 'g' in year 't'

(b) Repetition Rate

$$(r_g^t) = \frac{R_g^{t+1}}{E_g^t} \times 100$$

where

R_g^{t+1} = Number of repeaters in grade 'g' in year 't+1'

(c) Dropout Rate

$$(d_g^t) = \frac{D_g^t}{E_g^t} \times 100$$

where

d_g^t = Number of student's dropping out from grade 'g' in year 't'

(d) *Transition Rate (TR)*

$$TR = \frac{E_{g+1}^{t+1}}{E_g^t} \times 100$$

where

E_{g+1}^{t+1} = New entrants into Grade V/VI in year 't+1' and

E_g^t = Enrolment in Grade IV/V in year 't'

(e) *Retention Rate (RR)*

$$RR = \frac{\text{Enrolment in Grade IV/V in year 't' - Repeaters in Grade IV/V in year 't'}}{\text{Enrolment in Grade I in year 't-3'/'t-4'}} \times 100$$

25. Average Promotion, Repetition and Dropout rates present average of these rates in primary classes and is calculated by using the standard methods.

$$26. \text{ Gender Parity Index (GPI)} = \frac{\text{Girl's enrolment in Primary Grades in year 't'}}{\text{Boy's enrolment in Primary Grades in year 't'}}$$

$$27. \text{ Ratio of Primary to Upper Primary Schools/Sections} = \frac{\text{Total number of Primary Schools/Sections in year 't'}}{\text{Total number of Upper Primary Schools/Sections in year 't'}}$$

$$28. \text{ Gross Enrolment Ratio (GER)} = \frac{\text{Total enrolment in Grades I-V}}{\text{Population of age 6-11 years}} \times 100$$

$$29. \text{ Net Enrolment Ratio (NER)} = \frac{\text{Enrolment, I-V/6-11 age group}}{\text{Population of age 6-11 years}} \times 100$$

30. In-service Training, School & TLM Grants received, Incentives in terms of number of beneficiaries, Examination Results etc. are presented for the previous academic year

4. **Coverage: Some Facts**

■ Record date	:	30th September 2004
■ Grades covered	:	1 to 7 or 8 (depending upon the duration of elementary education cycle)
■ Total states	:	29
■ Total districts	:	581 (including bifurcated districts)
■ Total schools	:	10,37,813
■ Total students	:	156.01 million
■ Total teachers	:	4.17 million (including para teachers)
■ Total para teachers	:	3,79,385
■ Number of repeaters	:	11.83 million
■ Number of students with disabilities	:	13,98,300

5. Limitations of the Data

The analysis presented in the Report Cards is based on the information received from the State Project Offices and the District Project Offices. Procedures for the data validation and verification of sample data capture formats at the district level have been prescribed, and the districts reported the steps taken by them to ensure quality and reliability of data collection. The DISE software also checks for many internal inconsistencies in the data and generates reports for verification by the District Project Office. The State Project Office while transferring the data from the district to the state database ensures that the data received from the district is complete and free from any inconsistency. At the national level, data from the State Project Office is received to ensure compliance with various quality control measures. Despite these efforts, some inconsistencies and missing data are observed at the national level. In some cases data on key elements is found missing. In view of these problems, the data presented in the Report Cards may not exactly match. In some cases the discrepancies could not be resolved at the national level. Data for such districts is rejected due to gross inconsistencies and the same is not reported in the present publication. Previous year data is reported in such cases.

Despite all our efforts, it is possible that the field agencies might have not covered all *Navodaya Vidyalayas*, *Sainik Schools*, *Military Schools*, *Kendriya Vidyalayas*, *Tibetan Schools* etc. under DISE. All these schools are recognized schools and are supposed to be covered under DISE but their coverage varies from state to state and district to district. A few states have collected data from these schools while others might not have covered all such schools. Similarly, field level functionaries reported that data from a few private recognized schools couldn't be obtained for one or the other reason. We are trying to reach all such schools through the highest level, and are hopeful that these efforts will be reflected in the year that follows.

An attempt has been made to present flow rates in case of districts having DISE data for more than two years. While analyzing flow rates it is noticed that in a few districts the same was found incorrect, largely because of the inconsistent data. Flow rates in case of such districts have not been reported. States are advised to use consistency module of DISE software to identify and remove inconsistencies in the data. In addition, CRC coordinators are being made accountable to ensure that data is consistent and there are no missing values.

One of the other important limitations of the data is incomplete reporting of the school age population, which is very crucial in assessing the progress towards universal elementary education. It has been observed that information received on this aspect through the Village Data Capture Format, in most of the cases, is either incomplete or simply not reported. In the absence of reliable school age population, it is not possible to construct crucial indicators such as GER and NER both at the primary and upper primary levels of education.

The district-specific Census 2001 figures on single-age population are not yet available. Alternatively, the state-specific share of 6-11 and 11-14 year population in total population in 2001 has been applied to total projected population of the district in the current year to obtain district-specific child population and the same has been used to construct GER and NER. By using the compound growth rate between the periods 1991 and 2001, total population is obtained for the current year. Sprague Multipliers are applied to state's actual 2001 age group population to obtain single age population. The GER and NER presented in the present volume should, therefore, be analyzed in the light of these limitations. The estimates are likely to be changed once projections based on actual district-specific Census 2001 figures are available.

Indicators constructed and data presented in this volume are based on the data as has been received from the States & UTs as on September 30, 2004

District Report Cards 2004: A Few Comments

- *I appreciate your kind gesture in sending me District Report Cards, Mr. N. R. Narayana Murthy, Chairman, Infosys Technologies Limited, Bangalore*
- *I find the publication very informative and useful, Prof. M. Tawfik, Director, UNESCO New Delhi*
- *Congratulations on the excellent production of the two volumes of the District Report Cards, Prof. Amitabh Kundu, CSRD, Jawaharlal Nehru University, New Delhi*
- *These volumes contain useful information about elementary education, Dr. Dhal Singh Bishan, Education Minister, Madhya Pradesh*
- *The data is most valuable, Dr. Subhash C. Kashyap, New Delhi*
- *The data presented in the document are valuable additions to our documentation on the status of elementary education, Dr. Trilok N. Dhar, Education Consultant, New Delhi*
- *This publication is very informative and will be put to good use in the school library, Mrs. S. Chona, Principal, Delhi Public School, New Delhi*
- *This document will really be helpful in our research studies on education, Ms. Kalpana Bindu, Centre for Media Studies Research House, New Delhi*
- *I must compliment you for bringing out such an in-depth study on elementary education, Mr. Akhtar Parvez, Manager, ICRA, New Delhi*
